CORE EXPERTISE

- GST Compliance & Filings**
 - Returns: GSTR-1, 2B matching, 3B, 6 (ISD Return)
 - Annual: GSTR-9 / 9C audit independently working
 - Notices: Replies to demands & query resolution
- TDS Return Filing**
 - Returns: Forms 24Q, 26Q, 27Q & 27EQ filings
 - Compliance: Section-wise rules & corrections
 - Auditing: Notice resolution & challan verification
- Income Tax & ITR**
 - ITR Filings: Forms 1 to 4 for diverse entities
 - Audit: End-to-end support for Form 3CA / 3CD
 - Computations: Tax sheets & advance tax calculations
- Accounting & Payroll**
 - Reconciliations: Bank recon, P&L & ledger audits
 - Payroll: EPF, ESI filings & Form 16 issuance
 - Corporate: ROC compliance & MCA filing support

EXCEL & VBA AUTOMATION

- Excel & VBA Development**
 - Macros, VSTO Add-ins & custom shortcuts
 - Excel custom functions (UDFs) & Add-in files
 - Automated reconciliation & matching processes

PROFESSIONAL SUMMARY

GST & Tax professional with **5+ years of end-to-end compliance experience** across CA firms, large companies and listed entities — handled independently. Beyond filing returns, I build the systems that make compliance faster and nearly hands-free. Every cycle I've touched gets automated: GSTR-2B reconciliation, TDS management, payroll, 26AS parsing, notice workings. **Teams that spent 3 days on month-end are doing it in 3 hours.** I bring deep GST and income tax domain knowledge, paired with the rare ability to translate that into Excel VBA, Python and AI-powered tools — cutting manual effort by **70–80% permanently**.

70–80%

Reduction in manual compliance effort across GST, TDS & payroll

Excel

Automation, VBA & VSTO Development

5+ yrs

Across CA firms, large companies & listed entities

WORK EXPERIENCE

Senior Executive – Finance & Taxation

Taxmann Publications Pvt. Ltd.

Nov 2025 – Present

Delhi NCR · Full-time

- Perform **bank reconciliation & bill booking** — reconcile bank accounts and book contra and other adjustment or expense entries.
- Provide **GST audit & GSTR-3B support** — prepared monthly GSTR-3B data workings and GSTR-9/9C Working for audit support.
- Manage **royalty workings** — processed calculations and prepared half yearly workings for royalty verification.
- Provide **TDS 24Q working support** — compiled data and prepared support workings for quarterly TDS returns.
- Process **payroll for 300+ employees** — salary structuring, EPF/ESI deductions, Form 16 generation and full reconciliation with income tax workings.
- Built **Python & Excel VBA automation tools** — reduced monthly and daily manual tasks and time by 50-60% (e.g., automated sending emails with attachments to 300+ authors, reducing a 3-4 day process to seconds).

Tax Accountant

CA Firms

Aug 2022 – Nov 2025

Delhi NCR · Full-time · 3 years 3 months

- GST compliance for large and listed companies** — GSTR-1/3B/6/9/9C, GSTR-2B reconciliation, ITC reversals; handled **GST demand notices end-to-end** without external help — drafted replies, prepared workings, resolved multiple notices successfully.
- Provide **end-to-end tax audit support** — prepared drafts of Form 3CA/3CD, compiled financial statements, and assisted in computations of income for clients.
- Filed **TDS returns (24Q, 26Q, 27Q)**, resolved demand notices and managed corrections; issued Form 16/16A to 100+ deductees on schedule.
- Filed **ITR 1–4** for individuals, firms and companies; prepared advance tax workings, tax computation sheets and handled refund follow-ups.
- Built **Excel VBA automation for GSTR-2B matching** — reduced GST prep from 2 days to under 2 hours per client per month; automation continued in use after my tenure ended.
- Developed **Python automation projects for the team** — streamlined routine data matching and automated report compilation, improving productivity across the office.

EARLIER EXPERIENCE

Junior Accountant

Proprietorship Service Company

Sep 2020 – Aug 2022

Delhi NCR · Full-time

- Maintain **daily accounting** — managed sales, purchase, receipts, and payments with full ledger classification, monthly reconciliations, and inventory records.
- Prepare **daily expense reports** — compiled and structured daily expense sheets for tracking and cost control.

AUTOMATION & TOOLS

- **Python Scripting**
 - Desktop Apps: tkinter / PySide6 / Plotly tools
 - PDF Parsing: Data extraction (Form 26AS/Challans)
 - Security: Machine-lock licensing & locking
- **Cloud & Workflows**
 - Google Apps Script: Dashboards & sheets automation
 - Power Query: Reconciliations & data pipelines
 - Integration: n8n workflow setups for systems

ERP & COMPLIANCE SOFTWARE

- **Tally ERP & SAP**
- **MS Business Central**
- **HR One**

EDUCATION

- Bachelor of Commerce (B.Com)**
IGNOU University
2021 – 2024
- Senior Secondary (12th)**
HBSE Board · 84%
2019 – 2020
- Secondary (10th)**
HBSE Board · 84%
2017 – 2018

WHAT I BRING

- ◆ GST law — practical & procedural depth
- ◆ Handles notices & audits without support
- ◆ Automates every repetitive compliance cycle
- ◆ Tax domain knowledge + Python + VBA in one person
- ◆ Reduces whole team effort — permanently, not once
- ◆ Thinks in systems, not tasks
- ◆ Gets things done under deadline pressure

WORK PHILOSOPHY

- ◆ Every manual task is an automation waiting to happen
- ◆ Compliance depth first — no surprises at audit
- ◆ If your team works late on month-end, I've probably already automated that
- ◆ Build once. Save time forever.

AUTOMATION BUILDS & KEY PROJECTS

1. Tax Automation Suite — Commercial Desktop Product

Python (tkinter / Plotly / PySide6) · Excel VBA · PDF Parsing · Machine-Lock Licensing

- ▶ Built a licensed, multi-module desktop application covering GST, TDS, and verification for professional tax clients.
- ▶ **GST Module:** Auto-downloads GSTR-2B portal data for multiple registrations and merges all files into a single Excel file; bulk downloads GSTR-1 JSON files, merges them into Excel, and validates GSTIN status via PAN.
- ▶ **TDS Module:** Extracts Form 26AS PDF data to auto-populate Excel workbooks, parses TDS Challan PDFs into structured reports, and verifies Aadhaar-PAN link status — eliminating manual data entry and cutting TDS cycle time by ~80%.
- ▶ **Verification Module:** Integrated an IFSC verification tool to automatically validate bank details and branch information.

2. DelhiTaxi Pro — Commercial Booking Platform

Web Technologies · Node.js · APIs · Database

- ▶ Built and launched a production-ready, commercial taxi booking platform for the NCR market, designed as a sellable product.
- ▶ Integrated real-time booking, route mappings, and automated invoice generation to streamline booking operations.

3. 3D Interactive Portfolio Website

Three.js · React Three Fiber · Framer Motion · WebGL

- ▶ Built a highly interactive 3D web profile to showcase professional skills, tax automation experience, coding background, and project portfolios in an engaging, animated layout.
- ▶ Implemented custom 3D animations and responsive camera controls to create a modern and premium developer-style presentation.

4. Advanced Excel Automation & VSTO Add-ins

Excel VBA · VSTO (C# / .NET) · Office Add-ins

- ▶ Developed custom Excel functions (UDFs), custom shortcuts, and add-in files to extend standard Excel capabilities for the finance team.
- ▶ Built VSTO-based automated processes for bank reconciliation and GST reconciliation, eliminating manual matching and data entry.

5. Google Apps Script Web Apps

Google Apps Script · HTML/CSS/JS · Google Sheets API

- ▶ **Loan Pro Dashboard:** Built a custom dashboard to manage lending operations and generate future projection data.
- ▶ **Personal Financial Management:** Designed a real-time tracker for cash inflows/outflows with interactive charts and tables.
- ▶ **Attendance Management:** Created an automated web app that calculates employee overtime (OT) in minutes, replacing a manual 1-day task.

KEY ACHIEVEMENTS

- ▶ **70–80% reduction in manual processing** across GST, TDS, and payroll operations through custom automation.
- ▶ **Independently launched DelhiTaxi Pro**, a commercial booking platform for the NCR market.
- ▶ **Developed a robust problem-solving mindset**, building the confidence to independently research, debug, and resolve complex tax compliance and technical challenges.
- ▶ **Created long-term operational efficiency** by building automation tools that teams continue to use and save hours daily, long after my tenure.
- ▶ **Mastered AI-assisted development**, using advanced debugging and prompt interaction with AI models to rapidly build and ship complex automation tools.
